

Tag PEI During OSHA Safe + Sound Week, Aug. 12-18

PEI wants members to tag PEI in their safety-related social media posts Aug. 12-18 during Safe + Sound Week. That week, the U.S. Department of Labor, workers and job creators nationwide will raise awareness about workplace safety.

The goal is to get all U.S. employers to implement workplace safety initiatives and highlight how workers improve safety.

"Leadership commitment matters and demonstrates workplace safety is a priority," said Loren Sweatt, acting assistant labor secretary for occupational safety and health. "Safe + Sound Week reminds employers that safety and health programs help businesses save money, eliminate injuries and, most importantly, save lives."

Companies that want to participate in Occupational Safety and Health Administration (OSHA) Safe + Sound Week may download OSHA suggestions for activities [here](#). The OSHA [multimedia toolkit](#) includes downloadable logos, decals, a participant badge and banner and certificate templates.

PEI encourages member companies to share their Safe + Sound Week activities on social media using the following hashtags and handles:

- #SafeAndSoundAtWork
- @PEInewsfeed
- @petroleumequipmentinstitute
- #petroleumequipmentinstitute

Under the Occupational Safety and Health Act of 1970, employers are responsible for providing safe and healthful workplaces for employees. OSHA's role is to help ensure these conditions for working U.S. adults by setting and enforcing standards and providing training, education and assistance. For more information, visit www.osha.gov.
